

CONDITIONS OF USE

PERSONAL SETUP GUIDE

1. The SETUP GUIDE program is a program of DT Swiss to configure the suspension setup of DT Swiss forks and shocks (suspension products). The use of the program is free of charge and for non-commercial purposes only. The provided information helps you to calculate the air pressure, determine sag value, and understand recommendations for setting rebound and the compression. The output is a recommendation on the basis of your input data. Specific preferences or other factors are excluded.
2. DT Swiss AG does not warranty, explicitly nor tacitly, the proper functioning of the program; especially its accuracy, completeness, usability, or reliability of the respective calculation methods, including the compatibility with other programs. The user of the program takes full responsibility and bears all risks and liabilities regarding the completeness and/or correctness of the results and applications produced by the program.
3. DT Swiss shall not be liable for any direct or indirect damages suffered by or incurred in connection with or on occasion of the use of the program, including, but not limited to, damages occurred regarding data processing or damages caused by applying the results yielded by the program. Furthermore, DT Swiss shall not be liable for loss of data, incorrect data processing, costs and charges for service and repair due to bugs, damages to property, death and personal injury, loss of profit or any consequential damages.
4. DT Swiss AG shall not be liable for the correctness and completeness of the data with which the user fed the program, for the usability and compatibility of the materials and parts used in manufacturing the suspension, or for the suspension's proper technical functioning.
5. It is highly recommended that the user contacts a specialist or bicycle retailer to verify the program-recommended suspension setup. This service does not replace the user manual which is part of the product delivery or could be found under following link:
